Saurabh Prakash Lakhan

Java Full Stack Developer Pune, Maharashtra | 8530587167 | saurabhlakhan4545@gmail.com | LinkedIn | GitHub Portfolio

Professional Summary

Java Full Stack Developer with 1+ year of professional and internship experience building scalable and responsive web applications using Java, Spring Boot, Hibernate/JPA, React.js, and RESTful APIs. Strong understanding of Object-Oriented Programming (OOP), backend application development, and MySQL database integration. Experienced in developing production-ready applications with JWT authentication and role-based access control (RBAC). Skilled in building reusable React components, integrating REST APIs, and designing secure and maintainable full-stack solutions.

Technical Skills

Programming Languages: Core Java, JavaScript (ES6+), SQL

Frontend Technologies: React.js, JavaScript, HTML5, CSS3, Bootstrap, Framer Motion, Responsive Web Design, Component-Based Architecture

Backend Technologies & APIs: Spring Boot, Spring MVC, Hibernate ORM,JPA, JDBC, Servlets, JSP, RESTful APIs, Maven

Programming & CS Fundamentals: Object-Oriented Programming (OOP), Data Structures, Algorithms, Exception Handling, Collections Framework, Multithreading, Problem-Solving

Databases: MySQL, Firebase, SQL Queries, Database Design, Joins.

Security & Authentication: Spring Security, JWT Authentication, Role-Based Access Control (RBAC), Authentication & Authorization, Secure API Development

Architecture & Design: MVC Architecture, REST Architecture, Repository Pattern, Dependency Injection.

Testing & API Tools: Postman,Debugging, Troubleshooting

Development Tools: VS Code, Spring Tool Suite (STS), Eclipse, IntelliJ IDEA, GitHub, Git

Build & Project Management: Maven, Git, GitHub, Agile / Scrum, SDLC, Code Reviews

Version Control & Collaboration: Git, GitHub.

Professional Experience

Software Developer October 2025 – July 2026

Accure Softech Pvt. Ltd. *Pune, India*

- Developed a full-stack Career Portal using Java, Spring Boot, Hibernate ORM, MySQL, and React.js, enabling companies to manage job postings and candidates to discover and apply for relevant opportunities.
- Implemented a secure three-role architecture for **Admin, Recruiter, and Candidate** users, with separate dashboards, workflows, and permissions based on role-specific business requirements.
- Implemented **JWT-based authentication and role-based authorization (RBAC)**, ensuring users can access only the pages, APIs, and operations permitted for their assigned role and preventing unauthorized access to other role-specific modules.
- Developed an **Admin verification workflow** where company registration requests are reviewed and approved by administrators before recruiters are authorized to publish jobs on the platform.
- Built recruiter functionality for creating, updating, and managing job postings, including job title, description, required skills, experience, location, employment type, and application-related information.
- Developed candidate functionality for browsing and searching available jobs, viewing job details, applying to suitable positions, and tracking submitted applications.
- Designed and integrated **RESTful APIs** using Spring Boot and Hibernate for authentication, company verification, job management, candidate applications, and role-specific operations.

- Designed the MySQL database and Hibernate entity relationships for users, companies, jobs, applications, and roles, maintaining data consistency across the application.
- Developed reusable React.js components and role-specific dashboards with protected routes, providing a responsive and user-friendly interface for Admin, Recruiter, and Candidate workflows.
- Implemented backend and frontend validation, exception handling, and API-level authorization to improve application security, reliability, and data integrity.

Software Developer Intern March 2025 – September 2025

Pawar Technology Services *Pune, India*

- Developed 5+ responsive web applications using React.js, HTML5, CSS3, and JavaScript.
- Integrated RESTful APIs and managed real-time data using Java and Firebase.
- Built reusable React.js components and implemented UI animations using Framer Motion.
- Resolved 20+ UI bugs and collaborated with cross-functional teams in an Agile development environment.

Projects

Career Portal — Full Stack Job Portal using React.js, Spring Boot & MySQL

Cloud Survey — Cloud-Based Survey Application using React.js & TypeScript

Personal Portfolio — Full Stack Developer Portfolio using React.js, Spring Boot & Tailwind CSS

Shilpkar — Interior Design Platform using React.js, Vite & CSS

E-Commerce Website — Women's Fashion E-Commerce using React.js, Vite & CSS

Furniture Collection — Responsive Furniture E-Commerce UI using React.js, TypeScript & Tailwind CSS

Education

Kavayitri Bahinabai Chaudhari North Maharashtra University Jalgaon, India

Bachelor of Engineering, Computer Engineering — CGPA: 8.19 *July 2020 – June 2024*

Certifications

Java Full Stack Development — Skillio (TestingShastra)

React Development — Skillio (TestingShastra)
